- Creativity

ABOUT ME

I design and build digital experiences that are intuitive, informative, interactive, and accessible. I'm a front-end developer seeking a role where I can create a positive and engaging experience for users.

EXPERIENCE

WordPress Developer   Sept 2021 - Aug 2022

Fellow Insights, Inc.

Main developer overseeing Fellow's marketing site and ensuring a high-quality experience for users.

- Custom coding web pages and Gutenberg blocks utilizing PHP, JavaScript, React, Sass, and TypeScript
- Assisting coworkers with questions, concerns, and changes regarding the marketing site
- Installing and configuring new plugins to meet user needs
- Resolving bugs and implementing enhancements

UI/UX Designer   Jan 2022 - April 2022

IntraGrain - Contractor

Designed the new website experience for IntraGrain's client-side and employee portal.

- Designing and implementing UI/UX using Figma
- Create mockups, prototypes and design specifications for both web and mobile portals
- Referenced pre-existing portal designs to develop a satisfactory experience for clients and IntraGrain employees

Front End Developer & Design   May 2021 - July 2021

Spothot App - Intern

Designed and developed Spothot's marketing site as well as created app store screenshots for both Android and iOS mobiles and tablets.

- Utilized Figma in the planning phase of both the website and marketing materials
- Brought the brand's identity to life through the development and implementation of a style guide
- Developed designs for new app features being released
- Carried out bug fixes within the company's marketing site
